PROFESSIONAL SUMMARY

Film and television director with over a decade of international experience in Australia, USA, and Europe. I've worked across shorts, broadcast TV and feature films in both documentary and drama. My projects have screened internationally, including awards at the New York International Film Festival, and the Tropfest finals. Produced work has directly contributed to the raising of \$10m for the *Love Your Sister Foundation*. I am passionate about telling stories with depth, working with actors, and crafting beautiful images.
